PROFESSIONAL SUMMARY

Frontend Developer specializing in React and Next.js (App Router) with TypeScript, and a third-year Cybersecurity student at Menoufia University. Built and deployed a production e-commerce application with authentication, cart, and checkout flows, a fully Arabic RTL company website, and a learning platform on Supabase. Comfortable debugging real deployment issues and interested in secure, accessible web products. Seeking a Junior Frontend Developer role or internship.

SKILLS

Frontend:	React.js, Next.js (App Router), TypeScript, JavaScript (ES6+), Tailwind CSS, shadcn/ui, Bootstrap, HTML5, CSS3
State & Data:	React Query (TanStack Query), REST API Integration, Context API, Supabase
Auth & Tooling:	NextAuth.js / Auth.js, Git & GitHub, Vercel (Deployment)
UI & UX:	Responsive / Mobile-First Design, Arabic RTL Interfaces, Accessibility (WCAG) Awareness
Other:	Cybersecurity Fundamentals

PROJECTS

Fresh Cart — E-Commerce Web Application

[Demo](#) | [Code](#)

- Built and deployed an e-commerce app with Next.js (App Router), TypeScript, NextAuth v4, and React Query on top of an existing REST API.
- Implemented authentication, session management, wishlist, cart, and a multi-step checkout flow.
- Debugged and fixed production-only issues, including HTTPS cookie configuration and API response-shape mismatches.

Masar — Arabic RTL Website for a Construction Materials Manufacturer

[Next.js](#)

- Built a complete Arabic, right-to-left website with a custom design system (IBM Plex Sans Arabic, construction-themed palette).
- Developed a reusable component library: RTL navbar, product grid with client-side filtering, Arabic search, and a contact form with Arabic validation.

Video Games Discovery Platform

[Demo](#) | [Code](#)

- Game-browsing site (HTML, CSS, JavaScript, Bootstrap) consuming the Free-to-Play Games API to fetch and filter games by category.

CURRENTLY BUILDING

AccessLens — Accessibility Auditing SaaS

In Active Development

- SaaS (Next.js, TypeScript, Supabase, Auth.js) that scans websites for WCAG violations and generates AI-powered, plain-language fix suggestions.

Student Learning Platform

In Active Development

- Private learning platform built from scratch with Next.js 15, Supabase, and Vercel, developed across 10 structured phases; currently adding lesson progress tracking.

EDUCATION

Bachelor's Degree in Cybersecurity (3rd Year)

Sep 2024 – Expected 2028

Faculty of Artificial Intelligence, Menoufia University

GPA: 3.56 / 4.00

CERTIFICATIONS

Frontend Development Diploma

March 2026

Route Academy (Route IT Training Center)

LANGUAGES

Arabic: Native | English: Fluent
